

Automatic labeling machine ZT08

FOB Ningbo Price : \$33,520/set

Application:

Fully automatic labeling machine ZT08 is the second generation of ZT03. It is more perfect compared with ZT03. With seven years' operation experiences of ZT03 , ZT08 is more advanced. The operation of ZT08 is easier and more convenience, and the quality is even more better.

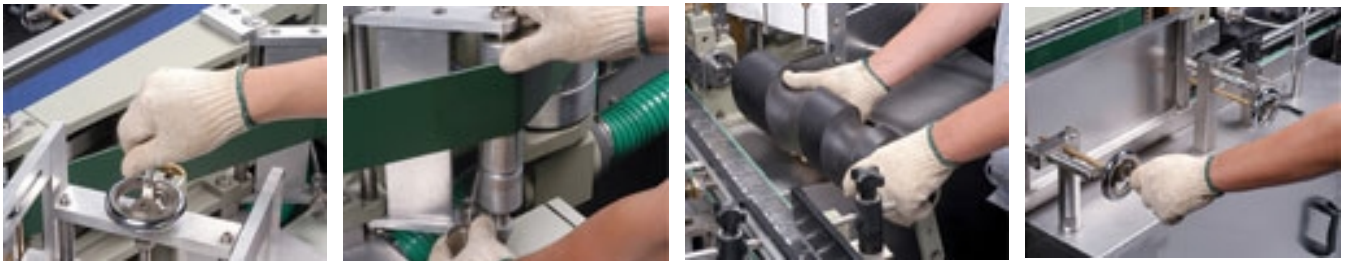

- ZT08 is a fully automatic labelling machine , which can apply parital or fully wraparound labels to cylindrical containers of all usual sizes.
- Cold glue is used.
- ZT08 is equipped with a frequency-regulated drive. It's speed is easily adjusted to need.

For handling containers and labels with close sizes, changeover parts are not necessary.

Main Technical Parameter:

Capacity:	60 - 150Bot/min
Size of container:	φ40mm -φ110mm
Size of label:	(length×high)80-370×20-200mm
Capacity:	60-150Bot/min
Power:	0.75kw
Weight:	750kg
Dimensions(L×W×H):	2400mm×800mm×1200mm
