

DUCT MANUFACTURING AUTO-LINE III

Line III consists of a decoiler, leveling & grooving rollers, hydraulic notching & punching machine, hydraulic shearer and hydraulic folder. The electrical control system uses a computer with a closed-loop servo-system to increase the precision and reliability of the line.

- A: Two power metal feeding frames
 - B: One leveling & grooving roller machine
 - C: Four hydraulic notch and die
 - D: Hydraulic shearer and folding machine
 - E: Industrial PLC control and specific software
- Max. working speed: 10m/min
Suitable plate thickness: 0.4-1.2mm
Max. plate width: 1300mm
Tolerance in length: +/-0.5mm

Tolerance in diagonal: +/-0.8mm

Working capacity: 1000m² square duct per shift.

Price:

Price basis: FOB Shanghai

Payment: 30% down payment by T/T in advance, the balance by irrevocable L/C at sight

Lead-time: within 40 days after receiving down payment

Total price: USD21,860 for 1300mm width

USD23,800 for 1600mm width

Guarantee period: One year since the date B/L.
