

LMT5250FSB Binding Agent Spreader

1、 Function

Mainly for roads cement spraying cold recycling, Can also be used for a variety of sub grade stabilized soil spreading adhesive, Spreading object: Cement、lime powder、 Fly Coal ashEtc。

2、 Features

1. loading spout has a dedicated, can also be feeding from the manhole;
2. Automatic Control, The value of spreading can't change with the change of truck speed
3. Use dust bag, No environmental pollution
4. Using bag mask to avoid spreading dust in the process;
5. Feed screw, dosing screw, spreading roller can control the speed, the amount of spreading is accurate。

6. Spreading process could operate by the driver (one person)
7. Powder Solis and Powder Tank all equipped with warning system to warning the operator if there is any increase or decrease about the amount.
8. Display operation parameters, and can be saved
9. The width of Spreading is 2500mm、 1670mm、 835mm。

3、 The main performance parameters:

Name	Parameters
Chassis	ZZ1257N4647D1
Engine	D10.34-40
Rated Power (kW)	249/1900
Wheelbase (mm)	4600+1350
Maximum spreading width (mm)	2500
Spreading tank volume (m3)	16
Working speed (km/h)	2.38
Dimensions: (mm)	9020x2500x3950
