SK-11+ Portable Elight (IPL+RF) Hair Removal Machine

Trolley optional, price not include trolley

Medical CE1023, CE, ISO13485, ISO9001 approval

## Specification

RF Energy	1-20J/cm <sup>3</sup> (10MHZ)
Light Energy	1-50J/cm <sup>2</sup>
Pulse width	1-10ms
Pulse interval	1-100ms
Pulse number	1-6
RF duration	50-2500ms
Spectra	530-1200nm (Standard)
Refrigeration	0°C ~ -15°C
Spot Size	8×40mm <sup>2</sup> (Standard) or 15×60 mm <sup>2</sup> or 20×20mm <sup>2</sup>
Net Weight	28kg
Machine Size	760mm×520mm×720mm (L×W×H)
Electrical Requirement	AC 110V±10% 60Hz AC 220V±10% 50Hz

## Application

1. Remove unwanted hair in different depths and thickness;
2. Rejuvenate skin, contract the pores and remove and black head;
3. Effectively remove all kinds of pigment, such as a freckle, deep-seated speckle, cuticular speckle, corium speckle, age pigment, chloasma;
4. Remove facial vascular lesions (Telangiectasis or pathological capillary vessel);
5. Remove acne on face effectively;
6. Dispel wrinkle, tighten skin, and face lifting.

## Before and after

## Features

1. Most advanced technology: E-light =Bipolar Radio Frequency + IPL +Skin Contact Cooling.
2. Two handpieces: one E-light handpiece and one bipolar RF handpiece.
3. Easier operation: 10'' color touch screen, 18 settings memory systems, 13 languages.
4. Advanced flash computer calculator
5. Easier installation: Plug-and-play CPC connectors.
6. Longer working time: powerful cooling system (air + water + semiconductor).
7. Safer working: waterflow and waterlevel systems keep valuable optic components always in definite safe condition. Optical components are never burnt out.
8. Medical CE approval, ISO13485:2003 and ISO9001:2008.

## Two handpieces

1. Standard E-light handpiece: Spectra 530-1200nm

→ icy

Optional: Change filters or big spot handpiece

Filters 420/540/585/640

Big spot handpiece 15\*60mm

## 2. RF handpiece:

25mm tip for face, 35mm big tip for body

## Color touch screen, Elight, IPL, RF 3in1

## Additional spare will be supplied with the machine.

## Packing

Foam plastics: we developed thick foam plastics bag based on a machine's shape. Firstly, we put the machine into the foam bag, the machine and the bag joint very close. Secondly, we put this bag with machine into the aluminum alloy box. This guarantee 100% safe for the machine under ship.

## Training

We provide User Manual and DVD video, it shows how to install machine, notice before & during & after treatment procedure clearly, easy for you to learn it.

## Delivery

Goods can be delivered to you within 3-5 days by air express. We have long-term cooperation with Fedex and DHL which can offer us good shipping cost and also best service.
