

## Pizza Production Line

Production process:

## 50kg dough spiral mixer

### Technical data

Dough capacity (KG) :10/80

Rated voltage(V):380V/50HZ

Rated power(KW):6.25

N/W(KG):430

Dimension(MM)1000\*720\*1280

Spiral mixers can imitate hand-kneading and rolling motions. The process of mixing with a spiral hook incorporates the more than double the amount of air into the dough, giving you a light and airy product simulating kneading the dough by hand.

### Features:

1. Stainless steel 304 arm, bowl and dividing plate.
2. Humanization operation panel. Easy to operation.
3. The chassis is made by blending and welding the plates. And the body is not rust by special processing.
4. Use the static power baking varnish, it's easy to operate, sturdy and durable, and with long service life. With timing functional.

TP-50KG 两包粉

PRICE:FOB SHANGHAI USD 2650

## Dough kneader

Model	HY-320
Capacity	1000-12000pcs/h
Voltage	220v/380V (costomizable)
Power	3.5kw
Control system	PLC
Operation	Touch screen
Machine dimension	5500*800*1500mm
Machine weight	550kg
Warranty	1year
Certification	ISO9001:2008, CQC, CE

### Features:

The intelligent automatic and continuous dough pressing unit is made up of continuous dough pressing machine and dough slice separating machine.

Dough pieces are delivered automatically to dough pressing machine, S-shape continuous folding pressing can increase the toughness of dough skin, fineness and gloss.

It is allowed to set the frequency of pressing (1-99 times), shutdown time (0-60 seconds) and adjust the thickness of dough slice (0.8-1.8mm).

**PRICE:FOB SHANGHAI USD 8400**

## Pizza base foming machine

PLC and touch screen adopted in the operating system can make the operation more convenient; handwork-imitating production can ensure baking technique unaffected and to make the products have beautiful, complete and bright appearance.

Model	HYB-IV
Product weight	customizable
Capacity	2000pcs/h
Voltage	220v / 380v(customizable)
Power	4.5kw
Control system	PLC
Operation	Touch screen
MachineDimension	8200*700*1600mm
Machine weight	800kg
Warranty	1 year
Certification	ISO9001:2008, CQC, CE

Slices of dough are brighter and have more stable quality after rolled and extended by roller and face welding device; rolling pin has adjustable device to set the thickness of dough slice to add or reduce product weight; dough slice can be cut into finished products by pneumatic or mechanical cutting device; press inner ring through punching to prevent from getting stuck in mold release process and keep the toughness of cake.

**PRICE:FOB SHANGHAI USD13100**

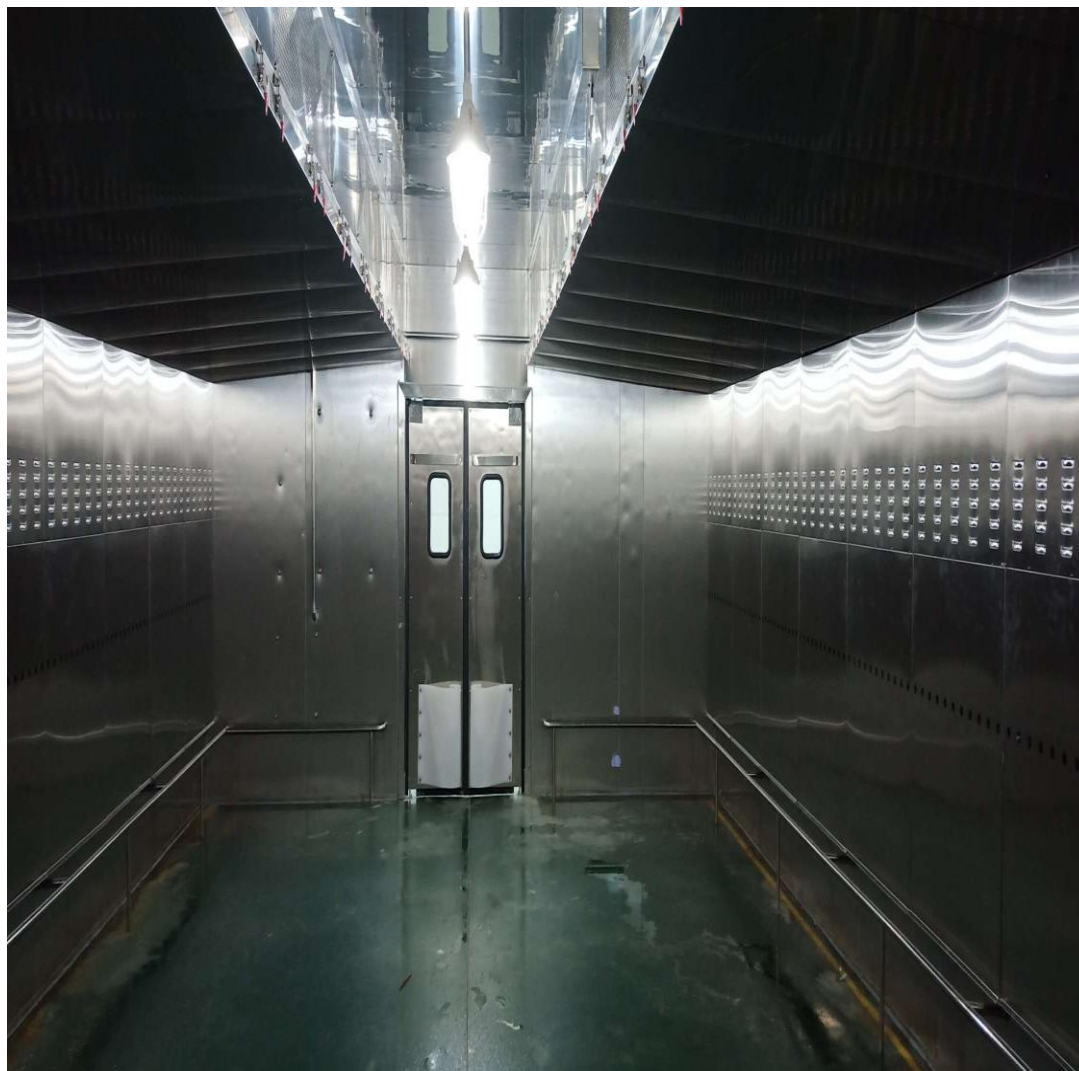

## Proofing room

Dimension:3m\*5m

### Features:

Constant temperature and humidity PLC automatic control proofing room (stainless steel air deflector, stainless steel constant temperature system (automatic or manual Dual-use), air circulation system, stainless steel constant humidity system (automatic or manual dual use), pipeline filtration and hydrophobic System, PLC intelligent circuit control system, steam pipeline control system, 2 sets of free doors, lighting system and Anti-collision device)

Effective clearance area :5000Lx3000Wx2600H (single cycle)

**PRICE:FOB SHANGHAI USD13700**

## Oven

Dimension:2880\*2080\*2480mm

Power:7.5KW

### Features:

- 1.The stove has an 18 cm insulation layer and the bottom is also insulated.
- 2.Suitable for diesel, natural gas, liquefied gas or electric power.
- 3.The whole machine use stainless steel, open the door to automatically lift the pedal, the top of the stove fan open the door from the open, take away the hot gas, when the production to avoid burns.
- 4.Dual temperature section control.

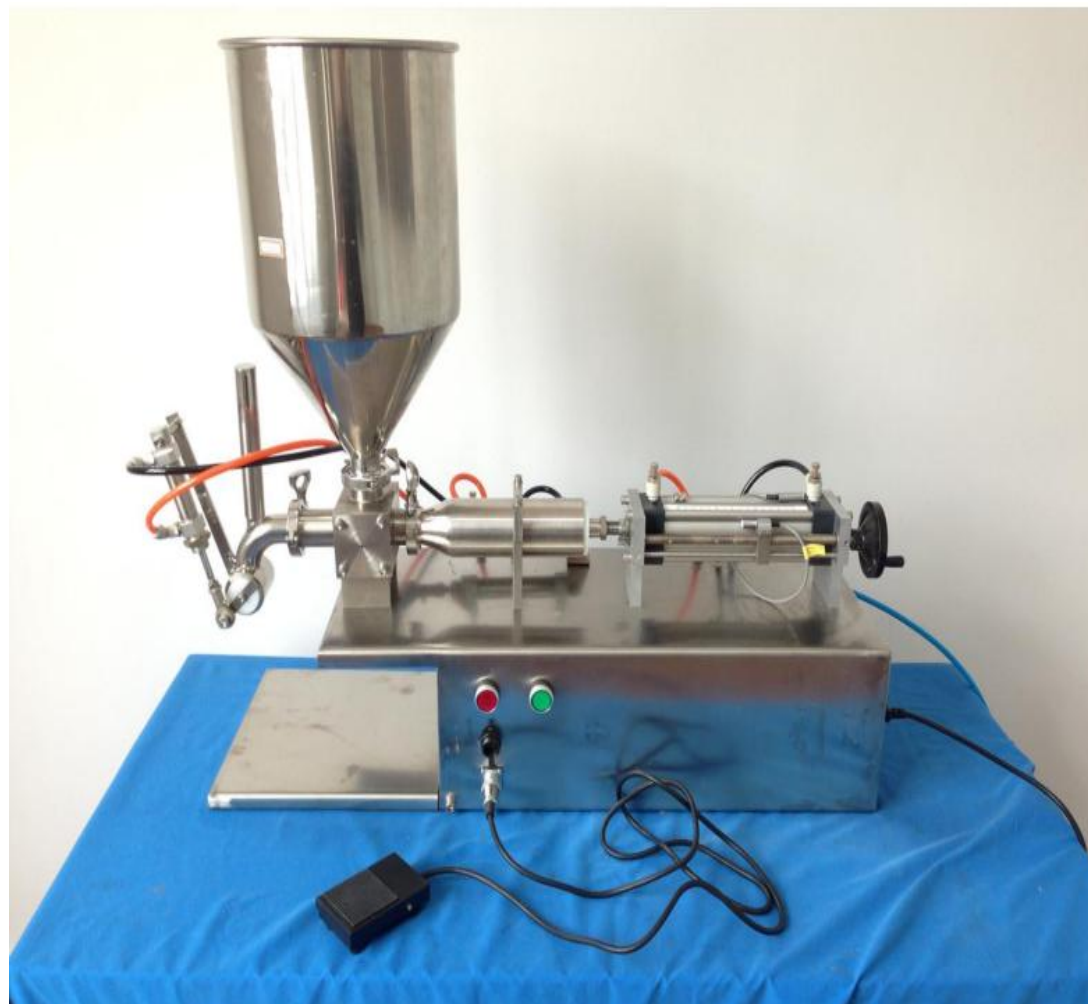

PRICE:FOB SHANGHAI USD 7000

## Sauce spreader\*2

Capacity	1000-12000pcs/h
Voltage	220v/380V (costomizable)
Power	2kw
Control system	PLC
Machine weight	20kg
Warranty	1year
Certification	ISO9001:2008, CQC, CE

Spread evenly over the pizza(Ketchup/Cheese,etc.)

**UNIT PRICE: FOB SHANGHAI USD 2500**

## Spiral Freezer

NO.	ITEM	CONTENT
1	Belt Material	Food grade stainless teel
2	Output Capacity	500kg/h
3	Inlet Temperature	+15°C
4	Outlet Temperature	-18°C
5	Inner Temperature	-38±3°C
6	Retention Time	Adjustable
7	Cabinet Dimension	6800*4800*2150mm
8	Condensing Type	Evaporative cooled
9	Door	Double seal and frame heating system
10	Driving Device	Speed reducer+speed conteoller
11	Insulation panels	PUF sandwich panels
12	Belt Tension Device	Floating alexweight
13	Control Panel	Schneider or Siemens
14	Belt Width	600mm
15	Belt Length	108mm
16	Evaporating Area	900 square meters

PRICE:FOB SHANGHAI USD 50500
